

Treble and Bass clef

Piano music is written on two staves: one for the right hand and one for the left hand. The notes for the right hand are written on the top staff and the notes for the left hand on the bottom staff. The position of the main notes C,D,E,F,G,A,B are determined by a clef.

In piano music, the treble clef is used for the right hand and the bass clef for the left. The treble clef shows that the G note is situated second line from the bottom. The bass clef marks the position of the F note second line from the top. The main notes are therefore positioned accordingly:

Treble
